

Mandatory Greenhouse Gas Emissions Reporting

This course covers the following topics:

- Context of GHG emissions reporting
- The detail requirements in the regulations
- An overview of the Technical Guidelines
- Discussion of the Technical Guidelines specific for the sectors in which the participants are operating
- The link with carbon tax
- The link with carbon credits

Date	18 June 2018
Venue	Future Space 61 Katherine Street Sandton Johannesburg
Time	8h00 for 8h30 Registration from 8h00 16h00 end
Price	R 2 900 (excl. VAT)
√	Certificate of Completion

Carbon Tax 101 Course

Specific objectives include:

- Increased working knowledge of the carbon tax
- Develop an understanding of the structure of the tax
- Develop an understanding of the scopes to be taxed
- Develop an understanding of the emission sources
- Develop an understanding of the inclusion criteria
- Develop an understanding of offsets
- Develop the skills to calculate your organisation's carbon tax liability

Date	19 June 2018
Venue	Future Space 61 Katherine Street Sandton Johannesburg
Time	8h00 for 8h30 Registration from 8h00 16h00 end
Price	R 2 900 (excl. VAT)
√	Certificate of Completion

GHG Emissions Inventory (ISO 14064-1 and IPCC methodologies) Course

The aim of this course is to provide participants with a thorough understanding of the GHG Emissions Reporting Regulations, Technical Guidelines, and Development of GHG emissions inventory as per ISO 14064-1 and methodologies as per 2006 IPCC Guidelines.

Specific objectives include:

- Develop an understanding of the requirements for emissions reporting as per National Greenhouse Gas Reporting Regulations
- Develop an understanding of the technical guidelines that are applicable to the participant's sector
- Develop an understanding of the Design and Development of a Greenhouse Gas Emissions Inventory as per ISO 14064-1
- Develop an understanding of Quantification methodologies as per 2006 IPCC Guidelines following a tier-based approach
- Develop the skills to calculate your organisation's GHG emissions
- Develop an understanding of the link with carbon tax

Date	20-21-22 June 2018
Venue	Future Space 61 Katherine Street Sandton Johannesburg
Time	8h00 for 8h30 Registration from 8h00 16h00 end
Price	R 7 900 (excl. VAT)
√	Certificate of Completion
